Coverboy!

Phil Duvic Shines on AJC Atlanta at Play Insert Cover

by Annie Leibvowitz

Was he seen by more people than see the cover of *Windsurfing Magazine*? Chances are yes. **Phil Duvic**, who graced the February 6 edition of the *Atlanta Journal Constitution's* "Atlanta At Play" supplement was probably seen by upwards of a million folks. Of those, 999, 897 thought that he and the rest of the Icebergers were nuts to be sailing in the dead of winter.

Reporter Al Levine wrote a very complimentary article about the Iceberg Regatta and while, invariably, there was a bit of "man bites dog" aspect about it (heck, if there wasn't, they wouldn't have been there covering it, would they?), we came across as a fun-loving and nice group of folks who don't let a bit of cold weather keep us from enjoying our sport.

It didn't help however that Asheville resident, **Bert Eskridge**, let slip some comment about "loonies". To show our appreciation to Bert, he will be our profiled member next month.

Long Distance Sail & Benefit Set ABC to Challenge Lanier Again for Parent to Parent

All of Club Invited to Participate

by our Staff of Plagarists

The Atlanta Boardsailing Club will take to the waves (if we're lucky; boat chop, if we're not) for the second year in a row to benefit **Parent to Parent**. On **March 28**, conditions permitting, we'll have a fun sail the length of lower Lake Lanier. For the intermediate and better sailors of the club, this is a great opportunity to see Lanier instead of reaching back and forth from the same old launch site. And, raise money for a good cause at the same time.

Parent to Parent is a local organization which provides support services and resources to the parents and families of children who have disabilities or special health needs.

The sail will be run under **Gregg Cattanach's** "gokart" rules where faster sailors circle around to the back of the group to keep everyone together. Last year, this made for a great group sail as

by our crack culinary critic

Our beloved **Powers Court** seems to have succumbed to the pressures of the marketplace. It closed several weeks ago for "renovations" but doesn't appear to be opening again any time soon.

Meeting Chairperson, Alex Navarrete, is currently seeking a new venue. If you have an idea of a good centrally located meeting spot, call him (770) 455 6815. In the meantime, Alex has selflessly offered for us to meet at his home where we'll meet, watch the WAGA video and chew on some pizza.

You are all invited and as always, family, friends and housebroken children are welcome, too. Pizza and soft drinks will be provided.

the faster sailors got lots of sailing in and the slower ones didn't feel left behind.

Nonetheless, Lake Lanier can be challenging in the spring and the sail should be attempted only by those who have confidence in their abilities and equipment. Also, longboards will probably be the call in case winds aren't consistent during the course of the day. However, bring that shortboard if the forecast turns out in our favor.

We'll have a midpoint break and a picnic at the destination. The start and end points are dependant upon wind direction so check before you go.

Details and entry form are on page 4. Call Greg, or Eddie if you wish to help or have any questions.

Inland Windsurfing Championships

Shrubs, Java and Grub

by our obscure writers

Our annual spring rite of passage, the Inland Windsurfing Championships again promises to be a great weekend. Race Chairman **Chris Voith** has been working hard recently, upgrading the camping facilities at the Lake Lanier Sailing Club.

Chris, with the support of both the ABC and the Lake Lanier Sailing Club, has embarked on a project to upgrade the camping sites. This includes landscaping, ornamental shrubs and the construction of tent pads which will provide

one 4way stop. As road appears to end at gate to Marina turn right just before gate into public day use area. Park ne

West Bank Alternative to Tidwell in a pinch. Possible launch for Long Distance Sail. Located on Buford Dam Rd about 1/2 m. west of the dam. From I-985 or Peachtree Industrial, take GA 20 west. About 5 miles turn right on Suwanee Dam Rd. Turn left on Buford Dam Rd. Cross Dam. (Yep, you get to drive on the thing. If you can, without wrecking, look into the gorge downstream of the dam and imagine how pretty it was before the Corps of Engineers created the lake.) Park is on the right. From GA 400, get off at Exit 14, GA 400. Go east (turn left if you came from Atlanta because of the cloverleaf). Turn left at first stop light in about 1/2 mile. Turn right in another 1/2 mile on Buford Dam Rd. Park is on left in about three miles. **No trailer parking!**

better accommodations to ABCers and our guests who stay the weekend at the regatta site. Chris will give us more details in the next *Lake Wind Advisory*.

We are also planning to enhance the Friday night soiree by providing hot coffee and dessert as well as the usual colder beverages. The same group that supplied the carbohydrate bonanza of the holiday party is behind this effort.

In an effort to provide the highest quality eating experience while raising funds for the club, Chris has decided to staff the catering with club members. While this will take some work and participation by us, this typically provides stellar meals and helps put a few nickels in the club treasury that allow us the luxury of a few picnics and parties. We will need volunteers. If you enjoy the various club functions, now is the time to give a little back to the club and help ensure that we continue to host great regattas and other club functions during the year. Call Chris at 404-250-0287.

Lastly, if you can, come and participate. Regattas are more than just racing. Its a great way to spend the weekend with fellow windsurfers in a great environment. The facilities at the LLSC are superb and offer a great weekend getaway. Make new friends or see old ones.

The Atlanta Boardsailing Club
 invites you to sail with us in the inaugural
Long Distance Charity Sail to Benefit Parent to

March 28, 1998

Between Buford Dam and Brown's Bridge on Scenic Lake Lanier

The Purpose:

A fun event that will benefit Parent to Parent which provides support and resources to families of disabled children or those with special health needs. You may either have sponsors pledge an amount for the distance you sail or donate an entry pledge. This is NOT a race.

The Route

Depending upon the wind direction, we will sail the lower part of Lake Lanier between Buford Dam and Brown's Bridge. Depending upon wind strength, the course is subject to be shortened. Expected end points and rest stops are:

- West Bank Park at Buford Dam
- Van Pugh Park
- Sunrise Cove

As the crow flies, this distance is about 12 miles. If the wind is S, SW, W to NW we will sail from the dam to the bridge. If it is N, NE, E, SE, we will start at the bridge. Tune into NOAA or the Weather Channel for predicted directions. Call 770 578-8417 or check the ABC website, the night before or the same day if in doubt. If the predicted wind is less than 10 mph or stronger than

30 mph, we will most likely wait until Sunday. Anything between, we will sail. (yes, non-planing condions, too.)

Who can participate?

Because of the distance and possibility of rapidly changing conditions, the event itself is for experienced and competent windsurfers only. We invite everyone else to give us a hand with transporting equipment, chase boats, and rest stops. While we intend to have chase boats on the water to aid sailors, each sailor must be prepared for the diverse conditions Lake Lanier can present in the Spring.

Wind Makeup

Date

The club may determine that wind conditions are insufficient to permit safe sailing of the course. In such case, we will attempt to sail on the following day. If wind conditions during the weekend due not permit safe sailing, the club may elect to cancel the event but all pledges and donations will still be due.

Schedule

Saturday or Sunday

- 8:30-10:00 am Registration & Check-in
- 10:00 am Skipper's Meeting
- 10:15 am Start
- 12:00 - 2:00 pm Lunch
- 4:00 pm After Sail Party

Logistics

We will provide transportation for boards and sailors back to the starting point. We will also try to provide that additional equipment will be brought to the intermediate rest areas to allow sailors to rig if conditions change.

The Shirt

Design to be announced.

How can you help if you aren't sailing in the event?

We'll need lots of help off the water, drivers, staff for the rest areas, help with the party afterwards. We will also need help

with a chase boat. Also, consider buying the T-shirt. It'll look neat and the proceeds will help someone, too.

Letters to the Editor

could come from a dog. Shame on you. We knew it had the earmarks of feline penmanship when we smelled the catnip upon opening the letter. The Lake Wind Advisory is apolitical if not also amoral and a waste of paper. We merely wished to point out that the youth of today would be well served by spending more time windsurfing and less time, well, doing other things.

James G. Galley

Dear Sirs,

Why is it that we always see the same names in the newsletter? Is it a club rule that only a small clique gets mentioned?

Name Witheld by Editor's Spite

Dear Mr. Spite,

We, too, have noticed that certain names appear more frequently than others and it troubles us to no end. The unfortunate thing is that we have difficulty writing about folks we doesn't see at club events or at the shore/beach. I would love to include more names and I will print just about anything that gets sent in. Heck, I even make stuff up sometimes to get peoples' name in.

But, still it's not enough. So, at least in this issue, we'll print everyone's name because the editor loves you all.
